SUMMARY

Computer Science Engineering student with practical experience in developing full-stack MERN applications. Proficient in frontend, backend, database management, and authentication, seeking an entry-level Software Developer role.

EDUCATION

Future Institute of Technology

2023 – Present

B.Tech in Computer Science and Engineering - CGPA: 7.38

Kolkata, India

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Database Management System (DBMS)
- OOPS Concept
- Web Development

PROJECTS

Bike & Scooter Rental System [🔗](#) | [MERN Stack](#)

July 2025 – Sep 2025

- Developed a full-stack rental platform handling **user authentication, bookings, and vehicle inventory**.
- Implemented **JWT-based authentication** and secure password hashing using bcrypt.
- Designed **RESTful APIs** and optimized MongoDB queries for efficient booking and user management.

Myntra Clone (E-Commerce Platform) [🔗](#) | [MERN Stack](#)

Feb 2026 – Apr 2026

- Built a responsive e-commerce application with **product filtering, cart, and order management**.
- Developed backend APIs for handling users, products, and orders.
- Implemented secure login and session management.

Online Doctor Appointment System [🔗](#) | [MERN Stack](#)

Dec 2025 – Feb 2026

- Developed a full-stack healthcare platform with **role-based access** for patients and doctors to manage appointments.
- Implemented **secure authentication** using JWT and bcrypt to protect user data and sessions.
- Designed **RESTful APIs** for appointment booking, doctor scheduling, and user management.

Notes Management System [🔗](#) | [MERN Stack](#)

Mar 2026 – May 2026

- Developed a secure MERN-based notes management system with **JWT authentication** and bcrypt for user data protection.
- Implemented full **CRUD functionality** enabling users to create, update, delete, and manage notes efficiently.
- Built **RESTful APIs** and a responsive React.js interface for an intuitive user experience.

INTERNSHIP

Ardent Computing Pvt. Ltd. [🔗](#) | Full Stack Web Development Intern

June 2025 – August 2025

- Worked with React.js, JavaScript, Node.js, Express.js, and MongoDB to develop web application features.
- Created frontend components and integrated backend REST APIs.
- Performed debugging, testing, and database operations during application development.
- Gained experience with Git workflow and software development practices.

Technical Skills

- **Languages:** Java, JavaScript, Python, SQL
- **Developer Tools:** VS Code, IntelliJ IDEA, Git, GitHub, Postman
- **Technologies/Frameworks:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, HTML5, CSS3, REST APIs, JWT Authentication, bcrypt, MVC Architecture, CRUD Operations
